

# Case Study

## Vodafone 5G Program

### Background

Vodafone leveraged the CoVentured network to find the best startups from around the globe that can leverage the new 5G network.

The program resulted in a list of the Top 100 5G Startups from around the UK and Europe.

The Vodafone Innovation team are now exploring collaboration opportunities with the top 20 Startups from the list.

### Testimonial

*"Vodafone used CoVentured as a way to find the Top 100 5G Startups as part of Vodafone's 5GDIG. With the help of the CoVentured network, we were able to identify great Startups who had technology and business models that can successfully utilise and profit from the new capabilities of 5G. We are working on connecting with these 5G Startups to explore how they might collaborate with Vodafone."*
